

Installation form

A dedicated Vox Fibre implementations team will be responsible for the implementation of all Vox Fibre installations. This will include the allocation of a Vox Fibre Project Manager to be supported by a subject matter expert for added services.

Vox will ultimately be responsible for deploying the fibre with various contractors visiting the installation site during the course of this process. This is due to the specialised teams which are required for the provision of the various aspects of the service.

We aim to manage and provide the fibre service timeously and with proficiency. We will therefore require the below information to be completed in confirmation of the install address for your Vox Fibre service together with your Landlord Managing Company

SITE NAME - CLIENT (SITE B)		
PHYSICAL ADDRESS		
ON-SITE CONTACT	NAME	
	SURNAME	
	WORK

I hereby take note, as the customer, shall be responsible for assisting in obtaining all third-party approvals, consents and availability necessary for surveying, installation and use of the Services. At point of signature it is confirmed that the landlord indicated that access to provide fibre infrastructure and services will be allowed pending final landlord approval post site survey. Delays in landlord approvals, consents and availability will impact delivery timeframes.
